NEW YORK, Feb. 8 .- Cur tailment of the European trade with South America because of war and a shortage of steam ships has brought about a de-

mand for sailing vessels of American registry and every ship, bark and schooner flying the American flag is being sought eagerly to carry cargoes between New York and Brazil and the Argentine. For the first time in twenty years schooners and ships engaged in the oil and lumber trade in the coastwise traffic have been chartered as carriers in the South American trade. More than a dozen of these vessels are now loading at local piers with cargoes for South America.

THE LUSITANIA.

The Lusitania incident evoked a speech in the House by Representative Martin of South Dakota, who announced that he favored legislation at this session to prohibit the use of the American colors on any but American vessels, and to make it an offense for the master of any foreign vessel, whether belligerent or not, to fly the American flag over a ship. He said the penalty should be confiscation of the vessel and a fine for the commander in the event the ship returned to American jurisdiction.

In 1900, a naval regulation was issued at the instance of Rear-Admiral Stockton, head of a board revising the code, absolutely prohibiting the use of either neutral or enemy flags for purposes of deception. But very soon after the highing of the order the attention of President Roosevelt was drawn to it by naval officers of high rank. They pointed out that the practice was of long standing and that it was perfectly legitimate warfare to make use of a neutral flag to approach either an enemy ship or his batteries or to run down a prize, with the single condition that before a hostile shot was fired the neutral flag must come down and the true standard be

war sone like similar British measures which were taken as a precedent, is designed, it is asserted, to warn neutrals that a ship venturing into the naval field of operations exposes itself, in the same fashion as a civilian wandering on a land battlefield, to the risk of being struck by a chance shot. It was stated today that it might be safely asserted that the Germans had no intention of sinking an American ship unless she was carrying contraband of war, and then oly if her crew could be given the possibility of escape. It was added, however, that war measures would be carried out against British trade with all possible severity in order to "give England a taste of her own medicine."

The warning to neutral shipping, it was asserted, was considered as particularly needed in view of the reported order to British ships to hoist a neutral flag whenever they are in danger, an order which if adhered to, it was stated, would make it difficult for a German warship to discriminate between neutral and hostile shipping. A number of the German newspapers assert that the memorandum accompanying the proclamation of February 6 made it clear that Germany has no intention of starting a war against neutral trade. They declare, however, that Germany was perfectly within her rights in declaring the zone around the British islands a war area into which it is dangerous for neutral vessels to venture on account of mines or naval operations, as well as owing to the possibility of mistakes being made in submarine warfare—a danger which they assert has been enormously increased by Great Britain, whose alleged abuse of neutral flags.

The newspapers assert that if the United States, which may result, like the pending Anglo-American negotiations on the American protest against delays to commerce, in clearing up the states, which may result, like the pending Anglo-American negotiations on the American protest against delays to commerce, in clearing up the situation.

As to the danger announced in the German warning, the newspapers say

A celebrated case of the successful use of a neutral flag during time of war was that of the Confederate sloop of war Oneida, which approached Mobile harbor in 1882, under the British ensign. Capt. Two more days have been allotted to the discussion of these "army estimates," which are called a "blank check budget" because the accounts of actual money which will be expended under them are represented by nominal, or token figures, Under-Secretary Tennant's speech was a stirring tribute to the British army and a plea for more recruits.

"It is true," he said, "that recruiting thus far has been very satisfactory, but it varies from week to week and possibly at the present moment a little more energy put into recruiting would not be out of place. There is no cause for discontent, but we want more men. Every man will be needed in this great life and death struggle. The variations and vicissitudes of this war may yet call for even greater sacrifices from the nation than have yet been made."

In making the declaration that troops have been brought from India, Australia, South Africa and Canada, without a single casualty, the Under-Secretary remarked:

The press bureau discussion was brought on by a motion by Joseph King, Liberal of North Somerset, "that the action of the press bureau in restricting the freedom of the press and withholding information about the war has been guided by no clear principles and has been calculated to cause a suspicion and discontent." Mr. King urged that the press bureau issue a daily or a tri-weekly statement as to the prosress, experiences, success and reverses of the British troops at the front. He added: "The press bureau ought to be used

"The press bureau ought to be used for freer dissemination of authentic information which would allay alarming and dangerous rumors."

In reply, Sir Stanley O. Buckmaster, director of the press bureau, defended its work. He declared that he had never withheld for five minutes any information that he possessed. Moreover, he said, he had published instantly everything that it was in his power to publish.

"I can conceive nothing," he said, "better calculated to give satisfaction to our enemies, who are endeavoring to discredit our official news, than the announcement that it has been suggested in the House of Commons that the press bureau is the subject of suspicion."

Sir William P. Byles, who seconded Mr. King's motion, asked if any disasters had been concealed, as there had been endless stories of a capital ship lost some months ago off the north coast of Ireland.
The speaker replied that that was an Admiralty matter, which could not be discussed under the head of army estimates.

They did not take any of the officers or crew of the Japanese vessel nor were they called upon for other assistance.

Although the Navy Department is prevented from making public any details, for considerations of neutrality, as German ships are about, it is understood that at least one Japanese coilier and two Japanese warships appeared at the scene and have taken charge of salvage operations.

Admiral Howard, in his report, merely said his vessels offered the stranded cruiser "any neutral service" but that no aid was desired.

SPANISH MINISTER SAFE IN MEXICO.

MADRID, Feb. 8 (via Paris, 7:30 p.m.)—Eduardo Dato, the Premier, said today that the incident growing out of the threat of Gen. Carranza to expel the Spanish Minister at Mexico City if he failed to surrender Angel del Caso, confidential agent of the Spanish government in Mexico, had been satisfactorily arranged through the efforts of the United States government. Senor Dato added that the Spanish government was pleased at the aid rendered it on all occasions by President Wilson.

Messages received in Washington from Mexico City February 4 said Dei Caso, who was the Spanish government's representative with Gen. Villa. had been ordered arrested for alleged activity in the service of Villa. It was stated that the Spanish Minister had been threatened with deportation unless he surrendered Dei Caso within twenty-four hours. Del Caco was upposed to be at the time hidden in the Spanish Legation in Mexico City.

31, was stopped on February 8 in spite of important forces which were brought into the action. We owe this success to the gallantry of our troops. In that particular encounter the Germans made extensive use of explosive bullets.

"In the lower Bzura region we continued to progress and on February 7, having forced three successive rows of wire entanglements, we captured a strong German point of support near the cemetery of the viliage of Komiony, taking prisoner the remainder of the sarrison, five officers and more than 350 soldiers. A counter-attack by the Germans an hour later was repulsed with heavy losess to the enemy.
"In the Carpathians our offensive is proceeding. On the Mesolaborcz-Lutowisko front we captured several strongly fortified positions and about sixty officers, more than 3500 soldiers and eleven machine guns."

HOLY WAR IN AFGHANISTAN

[SY WIRELESS AND A. P.] BERLIN, Feb. 8 (by wireless to layville, L. I.)—Among the items

Sayville, L. I.)—Among the items given out for publication today by the Over-seas News Agency, were the following:

"The Constantinople daily newspaper Tassiri-Eksiar asserts that a holy war has been declared in Afghanistan and that the Baluchistan and East Persian tribes have joined it against British rule.

"According to Berlin statistics, durling January there were 74,345 foreigners in Berlin hotels and boarding-houses, as against 104.287 in January, 1914. Among them were 157 Americans, 102 Russians, 4 British, 28 Belgians and 294 Swedes."

GERMAN CARDINAL ISSUES PASTORAL

BY ATLANTIC CABLE AND A. P.) AMSTERDAM, Feb. 8 (via Lon-don.)—The Cologne Church Gazette

publishes a pastoral letter by Cardinal Von Hartman, Archbishop of Cologne, as follows:
"God has been with our heroic warriers in the west, in the east, on the sea, in the air. He has been with our German people, in whom the determination to hold out and confidence in a victorious issue are glowing.

ing.

"The war is an extremely severe trial on all. Every one is courageously making the requisite sacrifices. Supreme confidence in God is being

shown by all Germans.

"With God our warriors went into this war, which had been forced on us, to fight for the existence and liberty of our beloved fatherland and to fight for the holy treasures of Christianity and its civilizing influences. Heroic deeds already have been accomplished under God's protection and under the direction of our glorious leader, the Emperor, and the German princes. We must look upon the man princes. man princes. We must look upon the war in the light of our faith."

SEE OVERNIGHT HOW READILY **POSLAM HEALS**

Often when Poslam is applied to an eruptional spot, that is the last you will see of the disorder, and the skin is clear see of the disorder, and the skin is clear next morning.

Poslam is efficiency itself in the treatment of any skin trouble. Its merits are easily demonstrated by trial overnight. Complexions are beautifully cleared; Blackheads and adolescent Pimples removed. Nothing equals Poslam for Ecama. Itching stops at once. All eruptional troubles are controlled and driven away.

DANZIG CUT OFF FROM THE WORLD.

BY ATLANTIC CABLE AND DIRECT WIRE-EX-COPENHAGEN, Feb. 8 .- Since yesterday all telegraphic communication has been interrupted with the important German naval port of Danzig where the greater part of the Ger-man fleet is lying. All neutral steamers lying in Danzig have been prohibited, from sending telegrams or letters.

Positive Relief For Constipation

The progress of modern medical The progress of mode'n medical science, is perhaps, no more forcefully evident than in the simplifying of many of the old time remedies of past generations. For instance, the harsh cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not only unnecessary but really harmful. Constipation can be more effectively relieved without the discomfort and pain these old time remedies occasion.

Our special sales at half price and less "direct from grower to planter" all over the State have proven a marvelous success; the enormous patronage demonstrates the fact that the people are with us on this and for more liberal and more intelligent planting. We are the pioneers in the rose growing game on the Coast; and have sold more roses in the State and on the Pacific Coast during the past fifteen years than all other concerns combined. We are not making a profit this season; the planter is reaping the reward by securing two dollars worth for every

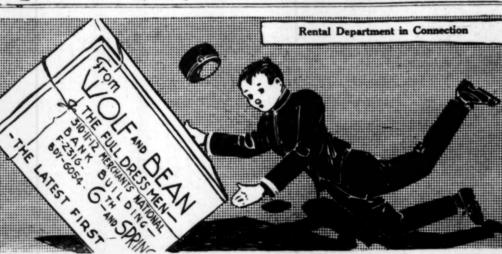

dollar he leaves with us; every community is materially benefited. We have sold to you and your neighbors during these years; you have not found us wanting.

EXCUSE ME" NOTE LEFT BY THIEVES.

BUT CRUDE CHART INDICATES BURGLARS PLANNED A BIGGER JOB.

While E. J. Crawford and Lee Law, who live together in an apartment-house at No. 411 East Seventh street, were at work yesterday, burglars entered their room and stole several suits of clothing and other wearing apparel. The robbers left a note which reads: "I hate like h— to do this, but need the money. I will pay you back some day. Excuse me." Detectives Rico and Leon investi-

gated the case, arriving on the scene a few minutes after the robbers had departed. The officers found in an adjoining room, where the thieves first took their plunder to pack it in suit cases, several sheets of revenue stamps, some chemicals often used by burglars in blowing safes, and another note. It said: "I expect to go north if we get the dough tonight."

the dough tonight."

These articles were discovered in a dresser together with a crude drawing of a certain section of the city, the home of a prominent resident being marked. It is the opinion of the officers that the chart was to have been used in another burglary job.

When Mr. Crawford arrived at his room he discovered it had been ransacked and noticed the door leading to the adjoining room was unlocked. Convinced that the burglars were there, he telephoned to Central Police Station, but the robbers fled before the officers arrived.

A young man who gave his name as James McGrone was arrested late last night wearing garments identified as one of the stolen suits. He is held in the City Jali on suspicion. He declared he bought the suit several days ago.

RESORT TO ARMS.

SANTA BARBARA, Feb. \$:—G. W. Kobelitz and Joseph Robson, his former partner in the Magnesia Building Company of America, a defunct local concern, may settle their business differences on the battlefields of France. Kobelitz is a German reservist and Robson is a member of the English army. They had a falling out here, Robson suing Kobelitz for the return of \$250. The latter filed a counter claim for \$750. The trial was to begin today, but as both men have been called to their native countries to fight, their attorneys moved for a continuance.

Then came the birth of an idea that landed Finestone in the City Jall yesterday.

At the different stores that give trading stamps of many hues it is possible to trade the stamps for almost anything from an alarm clock to a piano. A sales slip is given with each purchase and this in turn is traded for stamps. According to the police, for the last few weeks there have been complaints that the sales slips have been raised in such a manner that several times more than the real amount of stamps might be obtained.

DYANCING freight rates because of the phenomenal increase in the price of charters is causing shipping men some uneasiness for fear that considerable business that has been coming by water since the Panama Canal opened will be diverted back to the all-rail lines.

The first increase has already been announced by the American-Hawaiian Steamship Company, which, after March I, will jump the rate from this port to New York, on beans and canned fruits, to 35 cents; on dried fruits, to 35 cents; on dried fruits, to 45 and 50 cents; not office foots. This is a 5-cent increase on all these commodities.

It is expected that other lines will make a corresponding increase in freight rates, and that these east-bound rates will be followed by increases on low-grade commodities.

A week ago one of the well-known steed will feel the first jump in rates, which shipping men explain are caused by the old law of supply and demand.

The high price of charters without a parallel in maritime history, has brought about a serious situation. When the canal first opened there was a surplus of tonnage on the Panama considerable business that has been chartered a few months ago at stream schoeners that could have a surplus of tonnage on the Panama Canad for tonnage, are certain to have their effect not only upon the canal first opened there was a surplus of tonnage on the Panama canad for tonnage, are certain to have their effect not only upon freights from New York and other coastwise freights.

Carrying Mildred in her arms, the frail young woman went to San Diego to see Mr. Howard. She said she called at Mrs. Howard's home and was told she was not there, but that her son was on his yacht, Abloore. of the little woman became apparent.

"I told her I was going to stay there, as his hat and coat and auto were there and he would have to leave the next morning. I didn't think," she remarked, indignantly, "that he would walk out the back way. I told her I would wait until I saw him."

It was soid and the rain was falling, but the young mother carried her babe to the front porch and sat there for quite a while until the babe became restless and fretful.

"After she insuited me," resumed Miss Armfield, "I went out. She brought me a robe and J told her I would wait for Mr. Howard to come out until 5 o'clock in the morning. At 5:30 o'clock she came out and told me not to wait longer; that I would find Mr. Howard in Los Angelea."

Miss Armfield hurried back to this city and at the Van Nuys found Mr. Howard, who had arrived on the morning train

"He told me he was not going to marry me: that he was engaged to marry miss Griffith and that was the last time I talked to him."

Judge Wilbur ordered the court-room cleared when half the audience roared at a remark made by Will H. Armstrong, actor, father of Miss Armfield. He was describing the generosity of young Mr. Howard, who called at a San Diego theater "to see the girls." Mr. Armstrong said Mr. Howard's machine was at his disposal. Miss Armfield's counsel asked:

"Did you notice Mr. Howard's frees?"

"Did you notice Mr. Howard's dress?"

"Sure I did. He wore a silk hat two sizes too small, toted a cane and labored under a dress suit. I remember particularly because he looked like Charlie Chaplin."

During a discussion of the refusal to marry, former Judge Britt exclaimed:

"We deny that he ever refused to marry this plaintiff."

"If that's the case. Your Honor," stated Attorney McDonald, "we will call this suit off right now, if Mr. Howard will go to the marriage license bureau and then have the ceremony performed."

Mr. Howard was visibly embarrassed. Mr. Britt, explained:

"We deny he ever refused to remarry the girl in that he never promised to marry her."

The trial will be resumed this morning.

another rebellion somewhere along the Mexican coast.

An exhaustive investigation was made of the Annie Larsen when she put into San Diego with orders to load the contraband that had just reached that port. It was consigned by W. C. Hughes, a New York dealer, to Juan B. Bowen of San Blas, Mex., in care of Marco Martinez, customs broker in San Diego. It was claimed that the stuff was to be taken to Topolobampo, and the vessel was allowed to depart on its ostensible mission, but it is believed that the cargo may have been taken outside the shore limit and loaded on some German vessel. It is alleged, that the money required for the transfer of the cargo to the Annie Larsen was furnished or paid by an attorney of San Diego. It was further said that the shipment was made in the interest of the Carranza forces, but this has since been denied.

WE ARE daily receiving congratulations from classes of readers for our generous offer distributing, practically free, the wonderful

Imperial Embroidery Outfit containing in all 160 of the very latest Embroiden or to Reach Agreement. Patterns, including the New All-Metal Hoop Booklet of Instructions.

All Classes Need It

The woman of means needs it, because she enjoys the experience of creating something beautiful or useful with her own hands, and because nothing can take the place of dainty hand embroidered fabrics.

The woman of lesser means prizes it because it is the means of supplying better things for herself and children to wear at a trifling expense. The woman of moderate income can, by the use of this Outfit, wear just as pretty things as her more fortunate sister.

SIGNIFICANT FACTS ABOUT LOANS

In connection with the statement made by this Bank last week, that an increase of deposits in banks causes greater industrial activity and larger payrolls, we may now add that financial conditions ng at the present time are encouraging.

While business in general is improving rather slowly, surplus funds seem inclined to accumulate somewhat faster.

For example, the records in the Loan Department of this Bank show a very satisfactory number of loans being paid. This is probably due to a gradually increasing volume of smaller payments, and indicates that our entire community is becoming established on a firmer financial footing than during the preceding parents.

The result of this state of affairs, so far as the German American Bank is concerned, is that the capital employed in former loans is liberated, and can be used for new loans, and consequently to encourage new activity in all lines of business.

We are ready at present, therefore, to loan freely to our customers, and particularly to those having need of funds for such creative enterprises as will contribute toward a revival of business.

The explosion occurred shortly after 3 o'clock yesterday morning, when Mr. Chase and his family were asleep. Mrs. Chase and their three children managed to get to the street, but Mr. Chase stopped to save some money that had been hidden under the bed. Falling timbers caught him as he was about to leave the building and he was so seriously crushed that he died several hours later in the Receiving Hospital.

TREND OF THE FINANCIAL NEWS.

CHIEF EVENTS OF YESTERDAY.

(At Home:) The two greatest strides in gengral business resumption were the starting of the assembling plant of a great sawing machine factory, and the steel mills at Gary under full time, giving employment to thousands of men and spreading a feeling of security in other lines. All of our markets showed a healthy tone. Speculation was brisk. Prices, as a rule, were higher. The middle West is enjoying a boom because of the high prices being paid for corn for export. Money is especially corn for export. Money is especially y to obtain, rates for four months be-marked down to 3 per cent., the lowest many years. Two hundred and fifty thousand Democrats are to be employed as agents to bring the jobs and the jobless together. If each one of these agents secures work for one worker each week, employment will be found for thirteen millions of men and women during the year. DROMISES AND PERFORMANCES. Poes courtesy inhibit Republicans from continually inviting Democrats to a reading of that plank of the Baltimore which says:

We denounce the profligate waste of the money wrung from the people by oppressive taxation through the lavish appropriations of recent Republican Congresses, which have kept taxes Congresses, which have kept taxes high and reduced the purchasing power of the people's toil. We demand a return to that simplicity and economy which benefits a democratic government and a reduction of the number of useless offices, the salaries of which drain the substance of the people."

Congress has demonstrated that Republican extravagance has been succeeded by Democratic profligacy. Even with what is erroneously called the "war tax," the income of the government is so far behind its outgo as to shatter any hope that it will ever overtake it. The only hope of preventstrangely enough the first cut proposed is levelled at the rural delivery bill-the one measure that is near to all the people.

DUTIES OF NEUTRALITY. D Thomas Jefferson in 1793 expounded the rights and obligations of neutral powers in time of war, as follows:

"A neutral power is not bound to prevent the export or transit, in behalf of one or other of the belligerents, of arms, munitions of war, or, in general, of anything which can be of use to an army or fleet."

Article VII of the Hague Convention adopted in precise phrase the definition of neutrality propounded by Jefferson in 1793. In reply to the British Minister he wrote: "Our citizens have been always free to nake, vend, and export arms. It is the constant occupation and livelihood of some of them. To suppress their calling, the only means perhaps of their subsiste because a war exists in foreign and distant countries, in which we have no concern, would scarcely be expected. It would be hard in principle and impossible in prac-tice. The law of nations, therefore, respect-ing the rights of those at peace, does not require from them such an internal disar-rangement in their occupations. It is satisfied with the external penalty pronounced in the President's proclamation, that of confiscation of such portion of these arms as shall fall into the hands of any of the

belligerent powers on their way to the ports of their enemies." Though not bound to suppress traffic in contraband, the neutral power may not itself engage in it. The principle of Article VI of the Hague maritime convention applies equally to war on land or sea. It is as follows: "The supply in any manner directly or indirectly by a neutral power to a belligerent power of warships, ammunition, or war material of any kind whatever, is forbidden."

That a citizen of the United States may lawfully sell to a belligerent power arms and munitions of war, while our government could not lawfully make such sale, seems inconsistent. But Justice Story of the United States Supreme Court said: There is nothing in our laws, or in the law of nations, that forbids our citizens from sending armed vessels, as well as munitions of war, to foreign ports for sale. It is a commercial adventure which no nation is bound to prohibit, and which only exposes persons engaged in it to the penalty

This statement of Judge Story, made ninety years ago, has been much citicized, and Fennick, in his work on "Neutrality Laws of the United States," says: "At the present time we cannot imagine the neutral state permitting the departure of such ing such proof and security that there is no prearranged sale with delivery on the high seas, or in a port of the belligerent, as would make the design of the owner illusory from a commercial point of view."

Judge Percy Bordwell of Iowa, in an ar-

ticle in Case and Comment on the suppres-sion of contraband trade, very truthfully

"There is a tendency at times to exalt the rights of neutrals at the expense of the belligerents. There is a tendency to re-gard war as wholly evil, and to resolve any gard war as wholly evil, and to resolve any doubt as to a belligerent power or right against the belligerent. But in war great issues are likely to be at stake, as they are in the present war, and in determining, as a matter of policy, whether contraband traffic should be restricted, or deciding as a matter of law whether trade goes beyond the bounds of contraband traffic and must be suppressed, the neutral power should not give too great weight to the material-istic advantage of its own citizen."

S Eugene V. Debs, the man responsible for America's most disastreus railroad strike, has just been giving vent to some beautiful sentiments on universal peace and emphasizing the part played by Socialism in helping along this desirable Utopia.

The fallacy that a man is not expected to practice what he preaches is evidently in-dorsed by the leader of the Socialist party in America. Since Socialism vaunts itself so volubly that peace and the brotherhood of man are inscribed indelibly on its banner it is interesting to see how practice squares with theory in the history of So cialist organizations.

After Austria delivered its ultimatum to Servia and war rumors darkened the European political atmosphere, a big interna-tional Socialist gathering was held in the city of Brussels. Leading Socialists from France, Germany, Belgium and Switzerland were present and strong resolutions were passed condemning any action on the part of any government that might lead to declaration of hostilities.

At this conference the German Deputy, Herr Haase, president of the Partelvor stand, declared that under no circumstance could German Socialists be induced to shed the blood of their brethren in France. The German Social Democratic organization, he announced, had 110 representatives in the Reichstag, and they "would vote as a unit against any forms of war credits." Where upon a Belgian Deputy sprang to his feet and shouted. "Here is something which will stop war forever!"

Jaures, the French Socialist, afterward murdered in the streets of Paris, indorsed these contentions, asserting no French Socialist would ever fire a bullet at the command of an autocratic government. The British Socialists were equally strong in their denunciations of "the capital classes" who drag the masses against their will into foreign wars.

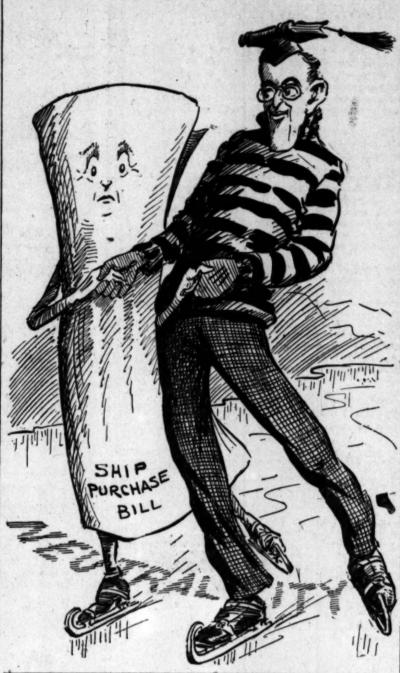

So much for words. Now let us see how they have been backed up by action. The French Socialist party is more anxious to carry the war to a bitter end than any of the capitalists, who, according to Mr. Debs, are the chief instigators of warlike policies. They are clamoring for complete

The armies of the Kaiser are filled with fighting Socialists, while the only Deputy in the Reichstag who voted against further war credits has been drummed out of the

Socialist party.

M. Vandervelde, leader of the labor party in Belgium, is an active recruit sergeant for King Albert. M. Hubin, a Socialist Belgian Deputy, before the war a loud exponent of the teachings of Karl Marx, announced amid Socialist cheers, "I should like to be at the head of the platoon which would shoot the 110 Socialist Deputies in the Reichstag." British Socialists are urging more active measures on their government for the starving out of the German nation.

Not much desire for peace or brotherly ove in the action of these men who, Mr Debs told a Los Angeles audience, belong On Thin Ice.

to the only party capable of bringing about universal harmony!

In Italy it is the same. The Socialists there are the war party, attempting by their words and deeds to drag Italy from her position of strict neutrality and provoke a conflict with Germany. Yet Mr. Debs has the effrontery to lay the blame of the European war on capital, which, as a result of the conflict, is being destroyed at the rate of millions a day. Surely, a paradoxical italism" the Socialists must suppose that self-preservation is the first law of nature.

This has always been the fallacy of Socialism, their professions never square with their deeds. Unrest, antagonism, discord and class hatred will be found on the reverse side of the banner of universal peace and the brotherhood of man. What has Debs ever done to bring about an honest union between capital and labor? Far from making for peace, the appeal of Socialism to the fighting instinct in human nature is the only thing that keeps it alive.

WET AND DRY STATISTICS.
Kansas boasts of being the champion prohibition or "dry" State of the Union. while Nebraska, which has the same climatic and other conditions, is populated by men and women who are-according to prohibition philology-"slaves of the demon

The Federal census report does not sustain the assumption that prohibition contributes to the physical, the mental or the moral advocates are busy preparing to submit it health of the communities which have again regardless of the cost to the taxadopted it. The figures are: "Insane and feeble-minded"-insane in hospitals: Kan-Kansas, 905; Nebraska, 411; insane with alcoholic psychosis, admitted in 1910, Kansas, 70; Nebraska, 20; feeble minded admitted in 1910, Kansas, 86; Nebraska, 23.

The Bureau of Census of Prisoners and Juvenile Delinquents for 1910, gives the following figures: Kansas, 1971; Nebraska, 789; prisoners, Kansas, 1537; Nebraska, juventle delinquents, Kansas, 434 Nebraska, 133; persons committed for nomicide, Kansas, 100; major assault, Kansas, 77; Nebraska, 40; for minor assault, Kansas, 28; Nebraska, 4; for robbery, Kansas, 89; Nebraska, 29; for burglary, Kansas, 275; Nebraska, 130; for larceny, Kansas, 619, Nebraska, 163; for rape, Kansas, 86; Nebraska, 27; for violating liquor law, Kansas, 72; Nebraska, 2.

That intemperance is an evil that should be checked by all lawful means is not a subject of argument. That it can be prevented by prohibition is a fallacy that has strated in every State where it has been tried.

Gough and Father Matthew and Francis Murphy, three of the greatest temperance persuasionists. Neither of them favored

Christianity never taught prohibition, and Christ turned water into wine. Prohibition has prevailed for a thousand years in Asia Minor, ever since Mohammed, sword in hand, compelled his followers to obey the Koran. Yet it does not appear that totalabstinence Turkey is superior to wine drinking Europe in art, in literature, in invention, in science, or in anything that makes for the moral or intellectual im-

provement of mankind. Senator Williams of Mississippi says that almost in proportion as races upon this globe consume alcohol they stand near the head on culture, industry and civilization. He says:

"Our Scotch brethren go up against their Scotch whisky for generation after generation and sip it at their breakfast and dinners, as we do wine, and yet when you find a Scotchman,

anywhere from the Arctic Circle to the mouth of the Ganges, he is found at the head of whatever enterprise there happens to be where he happens to be; your German has impressed himself upon the entire world, your Dutchman, too, both consuming a great deal of al-cohol; your Frenchman, less intemper-ate than either, has not impressed himself quite so much; your Spaniard, who is a very abstemious man, almost a to-tally abstemious man; and your Italian, who is very temperate, have not taken the stand that these others—Scotch, and English, and Irish, and North German—have taken; and across in the prohibition country which Mohammed made totally prohibition by a decree of the Koran, they, too, have not stepped to the very front in civilization not. to the very front in civilization, not-withstanding the fact that they do not consume alcohol at all."

In this speech Senator Williams sus tained his national reputation as an eccentric, for having given the foregoing reasons against prohibition in the District of Columbia he proceeded to give other reasons why he should vote for it. He justified the criticism which one of his colleagues of-fered concerning him when he entered public life as a member of the House, "John." said his fellow-member, "can always leave his seat without injury to his constituents. He can always pair off with himself for he makes a speech one way and then votes the other way."

Prohibition for California was voted down last December, yet its intemperate payers of such resubmission.

I find it hard to sing and dance, when up and down my jaws there prance those jumping aches which rend the nerves, and spoll the temper with their curves. And yet the other plan won't do: I've walked the floor the long night through, I've cussed a blue and blooming streak, while holding hot cloths to my cheek, I've used the language of despair. I've howled and yowled and pawed the air, and kept the neighborhood awake, and none of that relieved the ache. So why not smile and dance and sing? There's nothing in the other thing; when once again those aches begin, I'll gird my loins and push a grin three times around my face and back, and hold it there till jawbones crack. Then folks will say, "How brave he is! He that Spartan youth, gee whiz!" But when I yell, those people say, "He ought to take his face away; he keeps the neighborhood on thorns, because his blamed old teeth have corns; he queers our days and spoils our nights, with no respect for human The man who bravely bears his ills, and smiles while swallowing his pills, gets admiration without end, while he who groans can't find a friend. feel quite overcome. Which we generally are.

I know a bachelor who is scared to death of wives but has put his name down for two Belgian orphans. He wants to endure something, but there is a limit. Several spinsters feel like that, too. I know one young woman who recently refused a widower because she could not marry the children without father. On the other hand, of course, many widows and widowers are passed over because they cannot be married without the children.

And I once made the highly interesting acquaintance of a flower-seller at Piccadilly Circus in London, a dear, plump, motherly soul with rosy cheeks, abundant smiles, ecnomical of conversation, who in a burst of confidence assured me that she had five children, everyone with a different father. I went to see them, all in one top attic which was a shade diriter than the five children, but they were the happiest family for miles around. She said husbands in her walk of life, were a great

top attic winch was a shade direct than the five children, but they were the happiest family for miles around. She said husbands, in her walk of life, were a great trial and she could not abide them for long. But it was her nature to have children and she had not the slightest objection to working for them. I understood that she was jealously envied by a great many wives who had husbands with the right to knock them about under the English law. Her name was Maria and all the children called her that. They stood prepared to defend her good name in a dozen daily street fights, and she was always having to ball them out. I came upon the scene in the nick of time to ball Halfred out at the expense of five shillings. Halfred had nearly killed 'Erbert in the next alley for casting aspersions on his lack of a visible father.

Wherefore I have maintained regular in-

Wherefore I have maintained regular in-terest in Maria and her household and have just learned that Haifred has gone to the war to serve his country and has already been elevated to the rank of sergeant. One of these days I shall make myself famous by writing a true history of Maria and her bairns.

Of course Maria is an original, natural-born suffragette, but she does not know it. Marias have not yet become fashion-able, but they are visible signs that they are to receive a certain recognition in that His youthful Royal Highness, the Prince of Wales, publicly announced that his relief fund would be dispensed for all kinds of fund would be dispensed for all kinds of mothers, including the unmarried ones. In this country it works contrariwise. Even married mammas shudder emotionally at the idea of increasing their output. One lone bairn is all that can be tolerated in prosperous families. Mamma is generally so nervous, poor dear. Even the one is frequently an accident.

Of course in theory, it is better to have one perfect baby and load him down with advantages, rather than several imperfect

advantages, rather than several imperfect specimens. But it doesn't work out like that. Too many advantages appear to be a painful handicap and lone bairns are frequently the most unconscionable little horrors. Of course, neither they nor their mamma realizes it, but everybody else

A lone bairn's parents invariably suffer from aggressive myopia, quite incurable. It takes at least six babies for normal

When I first came to this country I lived in an exclusive residential suburb where bables were not considered good form. And nerves were. I got the impression that all American ladies specialized in nerves. And stomachs. They generally explained that they were not strong enough to bear children, which was considered rather aesthetic. But the suburb boasts one dear lady who has ten, the dearest, placidest, person you ever met. person you ever met.

I surmise nerves are an effect, not a

And now I have moved to a new neigh-borhood where babies abound. I was natur-ally perturbed when I discovered it, espe-cially when a family with eight children moved in next door. There was one lone bairn on the other side and he had already proved a powerful test of equanimity. Fancy having him multiplied by eight. And eight times mamma's nerves!

But to my consternation, those eight ever met, and there isn't such a thing as a nerve in the household. The devil has used erry in the household. The devil has used 'em all up on the mamma of the lone bairn. And the lone bairn likewise does all the screaming and kicking and flower-bed mutilating for the crowd. When I have a lot of work to do, I move my typewriter over to the side of the house where the eight children congregate. The other side is alterestly to experience.

together too emotional.

Which is, of course, upsetting all our refined theories about better babies and fewer of 'em. It is most disconcerting. When the lone bairn falls down and scrapes his shin the whole neighborhood is in an up-roar. When any of the eight do it, one of the others picks him up and wipes his nose on anything and it's all over in a second. It mother happens to be sewing on the porch, she murmurs something about rem ing to keep the right way up next time, nd never even loses a stitch.

The lone bairn's mamma calls the

tor both for herself and the scraped shin. Neighbors are called in to soothe her woe and hold her hand and we hear papa being told all about it when he comes home

Now I know all this sounds like heresy. My experience may have been unnatural. No nice-minded person would seriously recommend that the lone bairn share his joys—the mother's nerves—with half a dozen little brothers and sisters, which would possibly necessitate the poor the merest scrap of butter on his bread and ice cream only once in a great while. And mamma being at least a year behind the fashions

that a whole generation of lone bairns may grow up into a most detestable class of citizens who will assuredly dislike each other cordially. For the hardest thing in the world is to love somebody else's lone

There has probably never been an exhibition where the ensemble of structures has been so harmonious, so blending, and yet so different. Nor would it be necessary to see all of the buildings as they stand. The master mind and hand that designed and created the California Building has perpetuated his name, for builders who have looked upon this permanent structure regard it as one of the most perfect in existence, both outside and inside. Its wonderful facade, upon a little plaza, stands in the shadow of a majestic campanile, which also guards a perfect dome.

such as one might find in Moorish palace or Spanish castle is a continual delight. It is the opening of the ideal world, the world with nothing commercial, the millenial dawn of calmly peaceable refuge. And in these gardens are to be found the plants and blooms of a hundred lands. Treasures of eastern hothouse and tropic forest grow gladly side by side.

Next to architecture, the verdure of the plant life to be found on the hills of Balboa Park, among the buildings and far down into the canyons would be well worth a long, long journey. The process of producing fruits and flowers, from the hardy eucalyptus to the delicate tea plant; from the common orange to the little known cheremoya, and other tropical trees is an exposition in itself.

And there is no lack of exhibits. Perhaps there has never been a more wonderful decorative use of grains, seeds, fruits and similar products than that to be found in the long San Joaquin Valley Building. Picture a wonderful painting and imagine that close observation reveals, instead of

Edmond Breese as "Jack Frobisher" in Alfred Sutro's wonderful drama, "The Walls of Jericho," now being shown at Quinn's Garrick, is supported by an exceptionally powerful caste, Claire Whitney, Stuart Holmes and Theresa Michalena being the most prominent among them. The story of "The Walls of Jericho" is one that has an appealing note from its very human standpoint. Jack Frobisher is a stalwart, rugged man, and his efforts for the betterment of the pleasure-loving smart set of London compels interest. Henry Miller began his last week in "Daddy Long-Legs" at the Mason last night, and again, as was repeated by the case last week; it was necessary to put the orchestra in the lobby and utilize that space for sixty extra seats. Two notable incidents in the evening were the playing of the new "Daddy Long-Legs" march written by B. "Meine, the orchestra leader, and played in the foyer, and the sale of dolls for the Children's Home Society by a flock of society debutantes, who acted as vendors.

The performance itself left nothing to be added in the way of excellence, of course. Mr. Miller last night announced an extra holiday matinee for Friday, Lincoln's Birthday, in addition to the two for Wednesday and Saturday.

Pretty girl ushers dressed in the fashion which prevailed at the close of the Civil War walked down the aisles, distributing individual petitions to the City Council to permit "The Clansman" to proceed. These petitions were at cace signed by a majority of those present. They were afterward collected and will be sent to the Council.

In brief, the facts are that the City Council passed a resolution yesterday

Council passed a resolution yesterday morning instructing the Chief of Po-lice not to allow the pictures of "The Clansman" to be exhibited. This put an end to the plan for a matinee yes terday afternoon, and thousands of terday afternoon, and thousands of persons were turned away. Mr. Griffith secured an injunction from the court restraining the Chief from taking action and fixing 2 o'clock this afternoon as the hour when the Chief must appear to show cause why the injunction should not be made permanent, thus allowing the play to proceed indefinitely.

At that hour, I understand, a committee of twenty colored people will.

The question that comes to my mind in a case of this sort is not how much the production cost nor if it will pay, but whether it will hurt any child more than it helps. Without atchild more than it helps. Without attempting to editorialize in the criticism. I want to say that I have seen the production three times and think that it is one of those things that is bound to come out and that it is bound to create feeling, but one that contains vasily more good than evil. It is very foolish to ask whether it creates race prejudice. We all know that we meet not only race but national prejudices every day of our lives. They are touched by the stage just as they are touched by commercialism and by every public school in the land.

A play at best and at worst is nev-

cialism and by every public school in the land.

A play at best and at worst is never anything but a match. The people are the fuel and they always follow the natural bent of their feelings. I will not pretend that there was an absence of race feeling in some of the applause at different scenes of this play last night, but it must be admitted that there was also much generosity in the applause and that the audience was eminently fair to both sides in that aggravated period which was so vividly depicted.

Petitions were signed at the end of the first half of the play before what might be considered the more inflamatory passages were offered, but I believe that the temper of the audience would have been the same at the close of the performance. Dr. Locke wrote this paper a letter which we published in which he decried "The Clansman" as pernicious. Seated near me last night was Dr. Kramer, pastor of the First Baptist Church, and he declared that it was the grandest historical lesson ever thrown upon the screen, that it was accurate and fair to everybody and that every man, woman and child in America ought to see it.

While I think it is the greatest pic-

woman and child in America ought to see it.

While I think it is the greatest picture that was ever made and the biggest drama ever filmed, I am not blind to its faults. It is the story of one of the saddest pages of American history and its graphic narration will turn hundreds of thousands of Americans to their histories with a zest that nothing else ever inspired. Some of the acting is wonderful and nearly all of it is good. It takes about three hours to make the exhibition when two hours and a quarter would be much nearer right. Three hours is too long even for the best of pictures. Other pictures have boasted magnitude, but they have nearly always been more bulk than art. This one is prodigious in size and consummate in art. Not a detail has been slighted.

My one criticism is that it runs too

slighted.
My one criticism is that it runs too much to detail and that we are too long in reaching the central theme which is the organization and the work of the Ku Klux Klan. Nobody

hames have been quenched in the blood of a southern woman. In developing this theme and in leading up to the climax, the whole cause of the cromman and the charman and the other the burning of Atlanta and its evacuation. Both of the scenes are tremendous proportions. Many of the love scenes could be shortened and some of the detail entirely eliminated without damaging the splendid and massive picture.

It seems likely that the censors of each community will have their own ideas about what they want to take and leave. Neither New York nor Philadelphia cared to cut any part of it. The hour is so late that if I attempt any comment on the acting or the play I must do so in another issue.

Before the end of last senson Jennings had decided not to keep Kasanaugh on the job.

Not too much should be expected of Young. They all say he is a spectucular and sure fielder and a good pegger, but the Coast leaders maintain that he cannot hit. Young's batting average last year was 275. This is a fair average for the major leagues, but a 275 average in the Pacific Coast League hardly means more than a 220 average in the American League, unless Young turns out to be one of those rare birds who hit better in the majors than in the minors or just as well a Young turns out to be one of those rare birds who hit better in the majors than in the minors or just as well a young surked forty. SHETTLER BLAMES A.A.A. FOR CALLAGHAN'S DEATH.

EON T. SHETTLER, chairman of the Racing Committee of the Western Automobile Association and one of the most prominent men in American automobile racing circles, blames the A.A.A. for I the death of Jack Callaghan, the Duesenberg driver, who died yesterday as a result of the injury received in the 100-mile race on the dusty Ascot Park track Sunday. In commenting on the death of Callaghan, Chairman Shettler said yesterday:

"The blame for the death of Jack Callaghan can be laid directly at the door of the A.A.A.

NO AMBULANCE.

giving in return a sanction for such poorly-conducted meets as that Glendale and at Ascot Park is nothing less than criminal.

"Whether the death of Callaghan was due to the absence of an ambulance I do not know, but the fact that there was none in attendance gives evidence of negligence that is scandalous,

"I want the public to know that the Western Automobile Associa tion, which took racing a couple of years ago and raised it from the farce into which it was sinking, is in no way responsible for the sanctioning of such races.

DANGEROUS TRACK.

"At least ten times, I, as chairman of the W.A.A., have refused to hold races on the Ascot Park track and all for one reason. I consider it one of the most dangerous courses for automobiles in the country and would lend no support, moral or otherwise, to any races on that track.

"Racing is rapidly being reduced into a farce in Southern California by this indiscriminate granting of sanctions by the A.A.A. and the holding of such events is doing a great deal of harm to such legitimate and high-class events as the Vanderbilt Cup, Grand Prix and Venice races which are to be held in the near future."

TROJAN BASEBALL IS IN CRITICAL CONDITION.

Christian cut down the Oakland squad of infielders to eight today by slipping Bill Dowling his unconditional release. This occasions little surprise, for Dowling was not a howling success last season. Another infielder will get the ax, too, as Christian is determined to take only seven to the training camp. Bill Lindsay sent in his signed contract. That leaves only a few of the boys out in the cold, and Middleton, one of the number, is due in a day or two to talk over the situation with Manager Christian.

RIVERSIDE, Feb. 8.—With bree-goal handicap, the Chicago I three-goal handicap, the Chiesgo Club defeated the Passdena for the second game of the Riva tournament at Chemawa Park afternoon, the net score being

shot, and H. Weiss picked up the ball, driving it down the field and outside the goal. On the inplay Hudson relayed to Boucher, and Dr. Malaby scored with two drives.

Chicago then carried the ball down to Pasadena's goal, and on the inplay Le Boutellier scored his second goal as the chuckhur was called.

Hudson scored for Pasadena in the fourth period. Boucher stopped a run-in. Le Boutellier carried the ball well down the field and outside. Regieve Weiss got away with the ball and carried it to within a short distance from the goal line on the corrar, but Hudson ran in and with a cross drive scored one of the prettiest goals of the day.

STACK TO RESCUE.

STACK TO RESCUE.

Pasadena got away with the ball and almost scored another in the fourth period, but Stack saved the count with a cross-under drive down the field. Col. Fleischmann came to the rescue and rushed the ball down to the outside. On the inplay he caught a square drive on the offside and scored another for Chicago, the period and first half ending with the score Chicago 6½. Pasadena 3. Chicago carried the field with a sweep in the fifth round. Stack scored after a few cross drives, and when Boucher missed a goal shot in front of the Chicago posts the Windy City-gentlemen waltzed around the field to an angle far to windage of the goal, where Stack stacked another chip on the Chicago pile with a long drive through a scattered field.

BOUCHER SPILLS.

Arrangements are being made to Arrangements are being made to Candidate to The Tollers are rather weak in the mile, but Tietsworth is working hard on that event and shows promise of rounding into a first-class man.

A number of points are counted on in the weight events. George Bluett is showing good form with the shot. It is expected to do better than forty-legit feet before the season is over. It is another strong man in the shot put. Holderman is also good for better than forty feet.

FIELD EVENTS

Tony, Johnson and Clarence Bluett, who was formerly with L. A. High School, are counted upon to gather the points in the discus.

The high jump will be taken care of by Stewart, who is now doing better than five and a half feet, Zolle and Cookman. In the broad jump Oyler, Fitzsimmons and Cookman are all going over twenty feet.

Maurer is the star in the pole vault. With him vaulting over eleven feet and Stewart doing about the same, prospects are rather bright in that line.

The relay team will be able to hold its own. Such stars as H. Lamport, W. Lamport, Repath, Hughes, Fitzsimmons, Rennigal, Oyler, Cookman and Zolle should form an eight-man relay team hard to beat.

In view of the surprises that are sure to be sprung tomorrow, and the good men that have already shown their ability, Manual has more than an even chance to retain the title of city champions.

CLUBS IN A.L. RACE

HUGH JENNINGS picks five teams to be in the American League race this year, his own Tigers being one of them, of course. Detroit will be very much in the running, says Jennings, and the other four are Boston. Washington, Chicago and Philadelphia. Jennings in a breesy interview has a few words to say about small squads of players and their advantage over a lot of bench warmers, aaying:

"When a manager has as many players some of the big league teams carried last year he is having the owner of the club at his throat all the time in regard to salaries, and, believe me, a manager gets enough to worry about without having to fret over a thing like that.

"Then again, when there are so many players several of them get to be of no use at all just from sitting on the bench.

"Thactivity kills a ball player. He must get work against opposing on the bench.

"Thactivity kills a ball player. He must get work against opposing teams in order not to go stale. Dally practice with his teammates will not keep him keen as to batting especially.

"Bench loafing also makes for petty jealousles which enlarge as the season goes along. It would like to see the big leagues forced to cut down to eighteen men. That's enough. Twenty men would be ample."

"Jennings says Detroit will be very much in the running this year.

"Ty Cobb was out more than a third of the year list season, and that was a severe handicap. Of course, the boys play good ball when he is out, but some way, when he is in there, we have good."

ASCOT TRACK IS BEING

PREPARED FOR HORSES.

ARE YOU GOING TO BUILD?

Building material-brick, lumber, everything-is cheaper to-day than it has been in years; NOW is the ideal time to build.

While THE LITERARY DIGEST is generally recognized at all times as the standard year-round medium for building material announcements, the issue of February 6, 1915, will contain an unusual number of messages from the leading manufacturers in practically every line of material that enters into the construction and interior equipment of a modern building, of any description.

It does not matter whether you are interested in building or furnishing a business block, a manufacturing plant, an apartment house, a bungalow, or a home, you will be sure to find a vast amount of valuable information in this issue-practical information that

Wherever you are located, or whatever local building conditions you may have to meet, you will profit by reading THE LITERARY DIGEST every week.

The manufacturers, whose announcements are presented, are among the most reliable in their respective lines; their services and their products are guaranteed.

Every contractor, every man and woman who contemplates spending little or much money in building construction of any kind; in buying home, store, or factory fixtures, of any description, she read THE LITERARY DIGEST regularly, but especially the issue for February 6th, 1915.

The Greatest Weekly News Magazine

While every issue of THE LITERARY DIGEST is particularly interesting to prospective builders, the magazine also covers the whole world of thought and action in every field—politics, foreign comment, science, invention, religion, art, and literature—giving all sides of the news without bias or coloring.

Leads All Others for War News

An exclusive feature of the weekly war chronicle is a reprinting of extracts from the European press, translations and reprints of war reports, documents; reproductions of photographs and cartoons from the newspapers published in the countries engaged in the war—Great Britain, Germany, Belgium, Russia, Italy, and the Balkan States.

By reading THE LITERARY DIGEST you may learn exactly what the people of the warring countries think of this fearful struggle.

HEAVY GRAIN PLANTING.
[LOCAL CORRESPONDENCE.]

M'KITTRICK, Feb. 8.—Encouraged by present prices and prospective demand for grain, ranchers in the Carisa Plains country, west of McKittrick, are planting unusually large areas in wheat, to which the soil is well adapted. McKittrick is the shipping point for all this region for a distance of twenty to fifty miles lying in Kern and San Luis Oblispo counties. One firm alone, Cavanaugh & Bates, has put in 3000 acres of wheat, using two caterpillar engines and twenty head of stock. Nichols, Knight & Co. have planted 2000 acres in the same crop; John King, 1000; Fred Cavanaugh. Sr., 600; E. C. Wygal, 300. Many ranchers are planting both wheat and barley. For the past two or three years the Carisa Plains wheat crop has ranged from 20,000 to 25,000 sacks, with outlook that all records will be broken this year. This region has come to the fore within the last few years, some of the ranches being among the largest in the San Joaquin Valley.

SANTA ANA, Feb. 8 .- Though Fred Pobe of Corona declares he came to Santa Ana to hunt squirrels, He carried a revolver in his pocket,

Pobe has been staying, he displayed the weapon.

The woman had related to Ruddeck that her husband had told her he would kill her if she left him or ever had him arrested for disturbing the peace. She said life with Pobe became unbearable, and she came here.

Ruddeck steered Pobe from the house and soon directed City Marshal Jernigan to him. Jernigan took a loaded revolver from the man. "Did you come here for the purpose of committing some offense?" asked the officer.

Instantly Pobe replied: "No, I came to hunt squirrels." Pobe is 65 years old.

BEAUTY CROWN MAY BE HERS.

VENICE TO MAKE A GREAT CAM-PAIGN FOR ITS CANDIDATE.

Gertrude Staley, a young woman of many gracious qualities and much charm of manner, will wear the fiesta crown during 1915 if the Venice boosters can bring it about.

Miss Staley, one of the last candidates to be announced in the queen contest now under way under the auspices of the 1915 General Committee, is officially the representative of the city of Venice in the beauty race, but among her supporters are many Santa Monica people, and she is expected to poll nearly as many votes from there as from the municipality sponsoring her.

from there as from the municipality sponsoring her.

The Venice Chamber of Commerce is planning for the strand throne aspirant \$\pi\$ campaign which will include the co-operation of every organization of consequence in the Atlantic City of the Pacific. Prominent in this undertaking are Col. Thomas W. Prior, Abbot Kinney, Thornton Kinney, Dana Burks and Judge Rennie.

nie.

Until the close of the contest, in which fifteen daughters of Southern California are entered, the Venetians intend to make a great campaign to win for Miss Staley the flesta crown.

Ordinances Passed.

the city is about to achieve an ordinance for the installation, regulation and operation of elevators that will be very complete. The Public Welfare Committee of the Council yesterday asked the City Attorney to prepare a draft of this ordinance, including therein the recommendations presented by experts.

These recommendations were made by H. L. Boyd, J. L. Glennon and J. J. Malone. They met with the committee vesterday to discuss the points at issue. The result is that the ordinance draft will provide for the elevator inspector to be separate from the positions now being under the latter head.

AFTERMATH OF FLOODS.

Pending the outcome of the suit of Herman Bortenstein against the city of Los Angeles for \$17,000 damages to his property, caused by the 1914 spring flood in the Arroyo Seco, argued before Judge Shenk yesterday on demurer, a score of property owners will file suit for damages to their properties, some of which were swept away and others wrecked.

Mr. Hortenstein alleged in his complaint that the city is responsible by reason of the bridge over the Arroyo Seco catching the debris and diverting the flood waters. The city contends that it is not liable, but that if there is any liability it is against the Board of Public Works, which had charge of the construction of the bridge.

The court overruled the demurrer.
